

# Making Investment Decisions.

Asset allocation is dividing money into different investments depending on your savings goals and timeline. Let kids try it for themselves with this fun activity featuring the Three Little Piggybanks.

Draw lines to match the correct asset allocation of 100 coins in the different piggy banks for each goal, remembering to consider the time horizon for each. The first match is complete to get you started!

<p><b>HOWDY! I'M A YELLOW PIGGY BANK</b></p>  <p>Investing in me is smart if you're going to spend your money soon. I'm a pretty safe place to save your money for the short term.</p>	<p><b>HI THERE! I'M A GREEN PIGGY BANK</b></p>  <p>Money invested in me can earn more money, but it can also lose some.</p>	<p><b>HELLO! I'M A BLUE PIGGY BANK</b></p>  <p>I can make the most money over the long term, but I can also lose the most money in the short term.</p>
---	--	--

MY ASSETS	MY PIGGY BANKS		
 <p>Purchase a kitten Time Horizon: 1 Year</p>	 +	 +	 <p>30 COINS      50 COINS      20 COINS</p>
 <p>Purchase a car Time Horizon: 4 Years</p>	 +	 +	 <p>0 COINS      20 COINS      80 COINS</p>
 <p>Purchase college tuition Time Horizon: 12 Years</p>	 +	 +	 <p>100 COINS      0 COINS      0 COINS</p>

Draw lines to match the correct asset allocation of 100 coins in the different piggy banks for each goal, remembering to consider the time horizon for each. The first match is complete to get you started!
